Founder & Visionary of K K Wagh Balasaheb Wagh alias Bhau

... a symbol of

DETERMINATION – DEVOTION – DILIGENCE

The late Balasaheb Devram Wagh alias Bhau (1932–2022) was born in the legendary family of Padmashri Karmaveer Kakasaheb Wagh.

He was an Agriculture graduate and started his career in cooperative and agriculture gathering field experience in these sectors. Due to his scientific temper and rational approach, he succeeded in increasing the productivity of various sugar factories and brought them into the limelight.

Later, he founded the K K Wagh Education Society in 1970 and played an instrumental role in shaping this society. Owing to his dedicated efforts, able stewardship and interest in providing students with diverse fields of education like Engineering, Agriculture, Pharmacy, Polytechnics, Senior Colleges and school education (SSC & CBSE schools), the K K Wagh Education Society could establish 9 campuses by 2022.

A man of principles, he brought the light of knowledge into the lives of the rural population by providing education, especially for girls, at an affordable cost. His main focus was always on giving "Quality education to all students"

Being a man who believed in top quality, he strived so that the mark of K K Wagh spread across the globe from rural areas. Due to his constant support and engagement, more than 200 staff members have upgraded their educational qualifications and acquired degrees from institutes of repute in India.

His rich experience in agriculture and love for nature prompted him to encourage biodiversity on all campuses of K K Wagh Education Society and his efforts have borne fruit in the form of rare varieties of plants and a lush green cover at the various learning centers.

He was aware of various social issues and hence inculcated a sense of social responsibility amongst the students. Due to his student-centric approach, all his activities are aimed at the overall holistic development of students. Besides being proud of the Indian heritage and tradition he also had a keen eye in arts and hence to promote culture, he started graduate degree courses in Fine arts and Performing Arts, the only institutes outside Pune offering these courses. He has emphasized on the value system and character building to groom the students and faculty as good citizens of the globe.

A man who lived a very simple life was always busy in giving more to society and spreading knowledge and wisdom. A catalytic force behind three different associations of management of unaided colleges of Engineering, Polytechnic, and Agriculture & Allied. A leader who promoted quality education in various institutes in Maharashtra, and headed several delegations of managements for resolving the various issues along with the government and various organizations.

With his zeal and infinite energy, he tapped people's hearts and inspired them to undertake global challenges. He planted the spirit of K K Wagh in each and every one he touched... It is due to his generous approach and dedicated contribution that his memories will be cherished and remembered forever in the minds of several stakeholders.

CHAIRMAN PERSPECTIVE

It is a real pleasure for me to welcome you to the K K Wagh Group of institutions.

As a Chairman of the K K Wagh Trust I feel proud in sharing that the Trust has stayed true to its objective and vision throughout the years. We believe that quality education is the best and most assured route to prosperity and development of the society.

It is with this vision that our founding father, Shri. Kakasaheb Wagh, followed by our beloved Trust President, Balasaheb Wagh (Bhau), contributed towards the development of rural India. Today, with over 30 institutes under its umbrella, K K Wagh provides programs for the complete and holistic development of child and youth in the urban and rural regions of Nashik. We offer courses in Engineering, Pharmacy, Agriculture, School Education, Fine Art and Performing Art along with traditional Arts, Science and Commerce courses. You may be surprised to know that at any given point there are more than 20,000 learners across the programs of K. K. Wagh.

Our alumni continues to excel in various fields and are leading teams in international corporations. When someone asks, "How do I measure the success of K K Wagh. I reflect on two crucial attributes: Firstly, we have students whose parents graduated from this very campus... what else can be a true testament to the value that we offer for generations to believe in us! Secondly, the longevity of the members of K K Wagh in the system. The springboard that we provide students is built by dedicated staff who believes in the vision and values of K K Wagh. Year after year, decade after decade they have worked with the same zeal.

Today, we stand at a very interesting crossroad in the field of education. The competitiveness of a nation comes from its people and the human capacity comes from education nation. The proposed National Education Policy, 2020 has come with exciting opportunities for learners and academicians. It demands dedication, authenticity and innovation from educational institutes to develop skilled and valued citizens for sustainable development. A century ago, K K Wagh led the movement for top-class institutions. Again, the time has come when major institutes will have to lead the 21st century to implement the NEP. At K K Wagh We are ready for this challenge and are committed to lead the next phase. I invite you all to experience and engage with the K K Wagh Trust in this new phase.

K K Wagh – Contributing to Nation Development by Building Human Capacity.
