Program on Gender Sensitization Report

Event Date: 12/09/2023

Event name: Gender sensitization

Venue: Seminar Hall, K. K. Wagh College of Pharmacy, Nashik.

Objective of event:

Gender inequality and the climate crisis are two of the most urgent challenges of today. As we better understand and make the critical connections between gender, social equity and climate change, it's time we take action towards solutions.

Outcome of Event:

Gender Sensitization programmes at the college level would facilitate inculcating values of equality, inclusivity and diversity, which are essential for building a healthy society among adolescent boys and girls.

Outline of event:

Program on Gender Sensitization is celebrated during the Induction Program schedule for the newly admitted First Year B. Pharmacy and First Year D. Pharmacy students.

Mrs. Archana Deshmukh, Self-Development Analyst was the guest and speaker for the program. She explains how to create an inclusive gender-diverse workplace with fair practices. Also, she makes aware of the modification of behaviour by raising awareness of gender equality concerns in workplaces. She also insists that all must help in creating an open-minded society and familiarize them with their constitutional rights and safeguards.

The overall program was hosted by Ms. Bhargavi Deshpande and Ms. Anagha Badhe delivered a vote of thanks. Mrs. D. V. Jain organized the event.

Number of Participants: 115

Event coordinators: Mrs. D. V. Jain

Laboratory Equipment Training Program Report

In association with: IQAC Cell

Date: 22/02/2024

Time: 11 am to 1 pm

Place: Machine Room

Conducted by: Dr.A.P.Bedse

Objective of the Program:

A laboratory equipment training session aims to equip laboratory technicians with the necessary knowledge and skills to safely operate laboratory equipment.

No. of Staff Benefited: 06

Outcome of the Program:

This training covered equipment familiarization, safety procedures, operating procedures, maintenance and calibration, troubleshooting, data interpretation, quality control, and documentation. It taught technicians how to handle equipment, perform routine maintenance tasks, identify common issues, interpret data, ensure accuracy, and maintain quality control measures. This comprehensive training may contribute to the success of laboratory operations.

Training Report: HAP Lab and Pharmacology Lab Instrument Training

Name of the Trainer/ Staff:- Dr. Prashant R. Shirode

Name of the Department: - Pharmacology

Date: 24.02.2024

Objective of the Training:

The primary goal of this training was to equip the supporting staff with the necessary knowledge and skills related to various laboratory instruments commonly used in the HAP and Pharmacology labs. The specific objectives were as follows:

1. **Familiarisation with Instruments:** Introduce participants to the different instruments used in the labs, their functions, and proper handling techniques.
2. **Safety Measures:** Educate participants about safety protocols, precautions, and best practices while working with these instruments.
3. **Hands-On Experience:** Provide practical training sessions where participants could operate and troubleshoot the instruments.
4. **Efficient Lab Management:** Enhance participants' understanding of instrument maintenance, calibration, and record-keeping.

Beneficiaries:

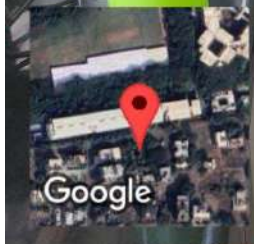

The training was designed for the supporting staff of KKwagh College of Pharmacy, including lab assistants, technicians, and other personnel involved in laboratory operations. The following groups benefited from the training:

1. **Lab Assistants:** They gained practical skills in instrument operation, maintenance, and safety.
2. **Technicians:** Improved their proficiency in handling specific instruments, ensuring accurate results.
3. **Administrative Staff:** Enhanced their understanding of lab processes, safety protocols, and efficient management.

List of Instruments Covered:

During the training, the following instruments were discussed in detail:

1. **Muffle Furnace:** Understanding its use for high-temperature applications, sample preparation, and safety precautions.
2. **Spirometer:** Learning about lung function testing, calibration, and patient comfort.
3. **Magnetic Stirrer:** Exploring its role in mixing solutions and maintaining homogeneity.
4. **Microscope:** Familiarization with different microscope types, specimen preparation, and proper usage.
5. **Cell Counter:** Practical training on cell counting techniques and accuracy.
6. **Electroconvulsimeter:** Understanding its application in studying seizures and neurological disorders.
7. **Rotarod:** Hands-on experience with assessing motor coordination and balance in experimental animals.
8. **Sherrington Rotating Drum:** Learning about reflex testing and data interpretation.
9. **Eddy's Hot Plate:** Safety measures while using animals on hot plates for various experiments.
10. **Autoclave :-** Explained about Principle of sterilisation
11. **Activity Cage:** Purpose and function in behavioural studies.

Safety Measures:

Emphasizing safety was a crucial aspect of the training. Participants were guided on the following safety measures:

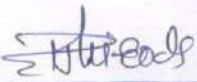

1. **Personal Protective Equipment (PPE):** Proper use of lab coats, gloves, and safety goggles.
2. **Instrument-Specific Safety:** Understanding risks associated with each instrument (e.g., heat from the Muffle Furnace, electrical hazards).
3. **Emergency Procedures:** Responding to accidents, fire, or chemical spills.
4. **Hygiene and Cleanliness:** Maintaining a clean and organized lab environment.

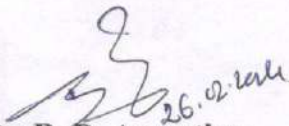

Conclusion:

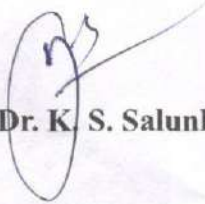

The training successfully empowered the supporting staff with essential knowledge, practical skills, and safety awareness related to laboratory instruments. It is expected that their improved competence will contribute to efficient lab operations.

Expert talk on “The craft of Writing Research/Review Paper- Report”

Event Date: 23/03/2024, Saturday.

Time: 10.30 am to 1.30 pm

Event name: Expert talk on “The craft of Writing Research/Review Paper”

Platform: Offline

Venue: Seminar Hall, K. K. Wagh College of Pharmacy, Nashik

Objective of event:

The objective of this Expert talk is to understand the Research/Review Paper structure, importance of clarity and precision in scientific writing, encourage critical thinking and analysis throughout the research and writing process to staff and students.

Outcome of Event:

The outcome of an expert talk on "The Craft of Writing Research/Review Paper" is multifaceted, aiming to equip participants with the necessary knowledge, skills, and confidence to produce high-quality research papers effectively. Participants gain a clear understanding of the standard structure of research/review papers, including the purpose and content of each section. They are better equipped to organize their ideas coherently and present their research findings in a logical manner. Participants learn techniques for improving their writing clarity, precision, and effectiveness. Participants acquire strategies for conducting comprehensive literature reviews, synthesizing previous research, and citing sources accurately and ethically. They understand the importance of engaging with existing literature to contextualize their research and build upon existing knowledge. Participants feel empowered and motivated to pursue their research goals with greater confidence and enthusiasm. They understand the importance of effective communication in scholarly endeavors and are committed to honing their writing skills to make meaningful contributions to their field.

Outline of event:

The expert talk was arranged on the topic “The craft of Writing Research/Review Paper.” The speaker for the same was Dr. Kishor S. Jain, Principal Rajmata Jijau Shikshan Prasarak Mandal’s College of Pharmacy, Dudulgaon, Pune. The session was arranged offline at seminar hall of K. K. Wagh College of Pharmacy, Nashik. Sir has explained about the different aspects of research paper, standard structure of research/review papers, benefits of scientific writing, importance of literature survey and also highlighted some examples of plagiarism.

The overall program was hosted by Mrs. Madhavi Pawar. Dr. D. D. Patil delivered a vote of thanks.

Report on
One Day Workshop cum Hands on Training on
“Application of 3D Printing in Pharmaceutical Sciences”

In association with: AICTE-IDEA Lab-KKWIEER, Nashik & Association of Pharmaceutical Teachers of India (APTI), Maharashtra, India

Date: 25/05/2024

Time: 09.00 am to 05.00 pm

Venue: Seminar Hall, K. K. Wagh College of Pharmacy, Nashik.

Resource persons

Dr. Ashutosh Bagde (Research Scientist, DMIHER (DU), Wardha

Dr. ShitalKumar Zambad (CEO, Thincr Technologies India Pvt Ltd & Professor RCPIPER, Shirpur)

Ms. Snehal Kadhbane, Asst. Professor, KKWIEER, Nashik (MS), India.

Objective of the Program

Demonstrating how 3D printing can revolutionize drug delivery methods, showcasing the breakthroughs in the field. Exploring how 3D printing facilitates the creation of complex drug formulations, including novel delivery systems & personalized medicine. Providing a platform for collaboration between researchers and 3D printing technology provides to advance the development of innovation drug delivery solutions. Identifying future research directions and opportunities for further innovation in 3D printed drug delivery, including emerging technologies, materials, and therapeutic applications.

Audience

No. of PG students Benefited with workshop: 25

No. of Faculty/Staff Benefited: 13

Outcome of the Program

Participants learn about different 3D printing technologies, materials, and techniques, and how they can be applied in various fields such as manufacturing, design, medicine, and education. Workshops may provide opportunities for participants to connect with others who share their interest in 3D printing, fostering a sense of community and enabling future collaboration or knowledge-sharing.

K K Wagh Education Society

K K Wagh Education Society is a leading education society in Nashik district and the state of Maharashtra. It was established in the year 1970 by Padmashree Late Karmaveer Kakasaheb Wagh. The vision of society is "Empowerment of youth through quality education". This Pioneer Society is spread in and around Nashik in nine beautiful campuses with over 23,000 students studying from K.G. to Ph.D. in various fields and nearly 1900 motivated & qualified faculty engaged in teaching. Research, placement, training, testing & counselling.

K K Wagh College of Pharmacy

K K Wagh College of Pharmacy, Nashik established in 2017-18 with an annual intake capacity of 100 seats for B. Pharm and 60 seats for D. Pharmacy (w.e.f 2021-22). Along with excellent academic inputs, we are creating technically sound, trained and diversified personalities, every department cares about the overall development of students imparting quality education in the pharmacy field.

Topics to be covered

1. Introduction to 3D Printer
2. Basic Principles of 3D printing
3. Hardware and Software Demonstration
4. Hands-on Training
5. Fabrication of Pharmaceutical dosage forms and Models

Program Schedule

Time	Program
09:00 am - 09:30 am	Tea, Breakfast & Registration
09:30 am - 10:00 am	Inauguration of the conference
10:00 am - 11:00 am	Session-1
	Tea Break
11:00 am - 12:00 pm	Session-2
	Lunch Break
01:00 pm - 02:00 pm	Software Demonstration
02:00 pm - 05.00 pm	Hands on Training

AICTE-IDEA Lab

AICTE-IDEA lab of K K Wagh Institute of Engineering Education and Research is to provide all facilities under one roof for the conversion of an idea into a prototype. With this facility on the campus students and faculty members will be encouraged to take creative work and in the progress, get training on critical thinking problem-solving, collaboration, etc. which conventional labs are not able to. The focus will be on training students so that they become imaginative and creative.

Conference Objectives

- ✓ Demonstration of 3D printing application in drug delivery, showcasing the breakthroughs in the field.
- ✓ Exploration of 3D printing facilities for the creation of complex drug formulations, including novel drug delivery systems & personalized medicine.
- ✓ Providing a platform for collaboration between researchers and 3D printing technology providers to advance the development of innovation drug delivery solutions.
- ✓ Identifying future research directions and opportunities for further innovation in 3D printed drug delivery, including emerging technologies, materials, and therapeutic applications.

HPLC Hands on Training for Staff

Event: HPLC Hands on Training

Event Date: 29/07/2024

Event Time: 12.00 pm to 4:00 pm

Venue: Central Instrumentation Room, Mezzanine floor, K. K. Wagh College of Pharmacy

Objective of the Program: The objective of this HPLC demonstration and hands-on training was to provide a comprehensive understanding of the principles, operation, and applications of High-Performance Liquid Chromatography. To Provide a step-by-step walkthrough of the HPLC instrument setup, including sample preparation, injection, and system calibration.

Outcome of the Program: Organizing the session on HPLC demonstration and hands-on training, Participants were gained a solid grasp of the fundamental principles of HPLC, including the mechanisms of separation, and the roles of stationary and mobile phases. Participants were familiar with the components and operation of HPLC equipment, including the pump, injector, column, detector, and data system. By the end of the HPLC demonstration, participants were equipped with the knowledge and skills necessary to effectively use HPLC in their analytical tasks, contributing to their professional development and the success of their scientific endeavors.

Outline of the Event: K. K. Wagh College of Pharmacy, Nashik, arranged a session on HPLC demonstration and hands-on training on 29 July 2024 for the faculty to increase their hands-on experience with sophisticated instruments. Mr. Prasad Rajabhoj, Tech. support Executive, Spincotech addressed the participants and gave guidance on handling HPLC instruments and software. Dr. D. D. Patil, Head of the Pharmaceutical Chemistry Department, initiated the session. Mrs. D. V. Jain coordinated the event.

Education

B.Pharm, M.Pharm, from Dr. H.S.Gour University, Sagar (MP)
PhD from School of Pharmacy, DAVV, Indore (MP)

Honours and Awards

- Secured a certificate of merit from ministry of education and society welfare, Govt. of India on the basis of High Position in Higher Secondary Examination (1975).
- M.Pharm. "Gold Medalist" (1981).
- Recipient of Junior Research Fellowship from UGC during M.Pharm (1980-1981).
- Recipient of Senior Research Fellowship from UGC during (Oct.1985-Feb.1988).
- Awarded the "Indian Drug Manufacturers' Association Best Research Paper Award," of 2005 in the discipline of Pharmaceutical Analysis.
- Best research paper in oral presentation in analytical chemistry field for "New spectrophotometric analysis of hydrochlorothiazide in tablets using N-N dimethyl urea as hydrotropic agent," in 3rd IPA Convention 2010 held at Indore.
- "Association of Pharmacy Professionals, Bhopal" has honoured Dr. R. K. Maheshwari with "Eminent Researcher Award 2012" during a national seminar at Bhopal (Globus college of pharmacy) on 1st Nov 2012.

Teaching Experience

Post Graduation Classes- 31 Years.
Under Graduation Classes- 33 Years.

Industrial Experience

Served M/s Martand Pharmaceuticals, Baraut (U.P.) as manufacturing chemist for 2 years and 8 months (12th Jan 1983 to 27th Sep 1985) and got approvals as manufacturing chemist for injectables, liquids (oral), tablets, capsules and ointments.

Previous Professional Administrative Task

- Worked as "In-charge of Pharmaceutics" at S.C.S.College of Pharmacy, Harapanahalli (Karnataka) (21.9.81 to 11.11.82)
- Former Member of Board of Studies of Pharmaceutical Sciences, Faculty of Technology, Devi Ahilya Vishwavidhyala, Indore
- Member, Board of Studies, RGPV, Bhopal
- Served as Dean, Faculty of Pharmacy, RGPV, Bhopal (MP)
- Formerly served as Head, Department of Pharmacy, Shri G S Institute of Technology and Science, Indore

Affiliations

- Life Member of Indian Society for Technical Education, New Delhi.
- Life Member of Association of Pharmacy Teachers of India, Bangalore
- Life Member of Indian Pharmaceutical Association.

Research Profile

- Solubility enhancement (hydrotropic solubilization)
- Dissolution rate enhancement (solid dispersions)
- Mouth dissolving oral film
- Novel application of hydrotropy in the analysis of poorly water-soluble drugs.
- Novel application of hydrotropy in the preparation of solid dispersions of poorly water-soluble drugs.
- Novel application of hydrotropy in the formulation of syrup dosage form of poorly water-soluble drugs to enhance bioavailability.
- Novel application of hydrotropy in the formulation of topical dosage form of poorly water-soluble drugs with enhanced permeation.
- Novel application of mixed-hydrotropy in the formulation of syrup dosage form of poorly water-soluble drugs to enhance bioavailability.
- Novel application of mixed-hydrotropy in the formulation of injection dosage form.
- Novel application of mixed-solvency concept in the analysis of poorly water-soluble drugs.
- Novel application of mixed-solvency concept in the formulation of solid dispersions, of poorly water-soluble drugs to enhance bioavailability.
- Novel application of mixed-solvency concept in the formulation of syrup dosage form of poorly water-soluble drugs to enhance bioavailability.
- Novel application of mixed-solvency concept in the formulation of injection dosage form of poorly water-soluble drugs.
- Novel application of mixed-solvency concept in development of liposomes of poorly water-soluble drugs.
- Novel application of mixed-solvency concept in development of oily injection of poorly oil-soluble drugs.
- Novel application of mixed-solvency in development of self emulsifying drug delivery systems.
- Novel application of mixed-solvency concept in development of controlled release tablets.
- Novel application of mixed-solvency concept in development of niosomes.
- Novel application of mixed-solvency concept in development of microspheres.
- Novel application of mixed-solvency concept in development of multiple emulsions.
- Novel application of mixed-solvency concept in development of in-situ nasal gel drug delivery systems.
- Novel application of mixed-solvency concept in development of non-aqueous injections.
- Novel application of mixed-solvency concept in development of ear drops.
- Novel application of mixed-solvency concept in development of liquid-solid systems for fast release of drugs.
- Novel application of mixed-solvency concept in development of dry powder injection for reconstitution of poorly water soluble drug.

Expert Session on “Eco-Friendly and Economic Methods In Various Field of Pharmacy Utilizing Hydrotrophy, Mixed hydrotrophy and Mixed Solvency Concept”

Event Date: 04/05/2024

Event Time: 2:30 pm

Event name: Expert session on “Eco-Friendly and Economic Methods In Various Field of Pharmacy Utilizing Hydrotrophy, Mixed hydrotrophy and Mixed Solvency Concept”

Speaker: Dr. R. K. Maheshwari

Platform: Online

Venue: Zoom Meeting.

Objective of event: The objective of this expert session is to provide a knowledge about drawback of organic solvents, importance of hydrotropic solutions and their utilization in pharmacy for estimation of pharmaceutical dosage forms of poorly water soluble drug by analytical techniques.

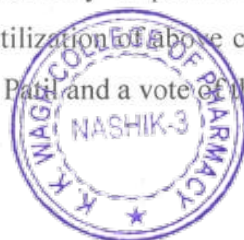

Outcome of Event:

The outcome of an expert session on " Eco-Friendly and Economic Methods In Various Field of Pharmacy Utilizing Hydrotrophy, Mixed hydrotrophy and Mixed Solvency Concept " provided knowledge to participants regarding the basic class of organic solvent and which one was safer and harmful effect of other on human beings. Participants gain clear idea about mixed solvency concept, identification test for poorly water soluble API can be performed by using hydrotrophy excluding use of harmful organic solvents

The faculty and students were aware about green and sustainable way in solubilisation process which may be Hydrotrophy. The use of solid in solid solubilization, avoidance of organic solvents, utility of green and sustainable solvents, use of hydrotrophy in pharmaceuticals with many different examples and research papers was shown and discussed by Dr. Maheshwari.

Outline of event:

The expert session was arranged on the topic “Eco-Friendly and Economic Methods In Various Field of Pharmacy Utilizing Hydrotrophy, Mixed hydrotrophy and Mixed Solvency Concept.” The speaker for the same was Dr. R.K. Maheshwari, Professor, Department of Pharmacy, Shri Govindram Seksaria Institute Of Technology and Science, Indore (M.P.), India. The session was arranged online on zoom meeting platform. Sir has explained about the concept of hydrotrophy, mixed hydrotrophy and mixed solvency in pharmacy. For better understanding sir explained various assay of API regarding utilization of above concept in pharmaceutical feild. The overall program was hosted by Dr. D. D. Patil and a vote of thanks delivered by Mrs. D.K. Kadam.
