RAP Training Session Report

TRAINING REPORT

Date: 07/01/2022 - 08/01/2022

Time: 10.30 pm to 4.30pm

Resource person: Mr. Rohan Pawar

The objective of the Session: To acquaint students with theory as well as practical of sophisticated instrument.

The outcome of the webinar: All the students got knowledge of principle and working of sophisticated instruments. Students are being able to handle sophisticated instruments (UV, GC, and HPLC).

Number of participants: 34

Event co-ordinator

Prof. S.S. Raut and Prof. K.P. Baviskar

Day 1 (Theory session 08-01-2022)

Mr. Rohan Pawar gave a talk about UV-visible spectroscopy, gas chromatography, and high-performance liquid chromatography. He talked over the principles, workings, instrumentation, and applications of all of these advanced instruments in detail. He also highlighted drug quantification using a UV-Visible spectrophotometer.

He also explained about how HPLC and GC were used to separate, identify, and quantify each component in a combination. He also discussed daily life applications of these instruments.

He also discussed on GLP. He explained to participants how to apply these good laboratory techniques into effect in regular practical sessions. He also described how GLP can assist enterprises and research centres in maintaining product uniformity, consistency, reliability, reproducibility, quality, and integrity.
