**Kiran Chandrakant Sonawane**

has successfully completed the online, non-credit Specialization

## Improve Your English Communication Skills

This Specialization helps you improve your professional communication in English for successful business interactions. Each course focuses on a particular area of communication in English: writing emails, speaking at meetings and interviews, giving presentations, and networking online. Whether you want to communicate to potential employers, employees, partners or clients, better English communication can help you achieve your language and professional goals. The Capstone will focus especially on making those important connections to take your career or business to the next level. Make yourself more competitive by improving your English through this Specialization: Improve Your English Communication Skills.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

### **About the Continuing Education Program (CEP):**

The Pharmaceutical world today is adopting new technologies and practices and pharmacy education in this country needs to be relevant in the global context. In this era of globalization & privatization of education, students consider the teachers as partners in the learning process. Knowledge and skills obtained by the teachers during the period of training of their qualification are not enough to remain competent throughout their career. In other words, a teacher needs to be a self directed lifelong learner.

Pharmacy Council of India (PCI), thus felt the need to impart training to the Pharmacy teachers with respect to current needs of the teachers in achieving excellence in Pharmacy education. By means of this CEP, attempts shall be made to explore mechanisms for supporting the development of teaching competencies.

### **Objectives of the Continuing Education Program:**

The objective of the CEP is to provide a dynamic platform for teachers to be exposed to newer teaching skills and methodologies. This CEP will empower teachers to use innovative methods and techniques for effective teaching. Thus, teachers shall be able to enhance their own performance in the classrooms.

### **Continuing Education Program Thrust Areas :**

1. Innovation and creativity in teaching
2. Micro teaching
3. Research methodology for research aspirant teachers
4. Problem Based Learning
5. POs, COs and their attainment
6. Assessment and Evaluation tools
7. Soft skills, mentoring and counseling skills essential for teachers
8. Role of teachers in enhancing employability of students

### **Resource Persons**
